POLICY

**Department of the Lottery**  
**Personal Identity Information Protection Policy**

**POLICY STATEMENT**

The Illinois Department of the Lottery (the “Department”) establishes the Personal Identity Information Protection Policy (the “PII Policy”) under the Identity Protection Act (5 ILCS 179) and the Personal Information Protection Act (815 ILCS 530) (Collectively, the “Statutes”), attached as Exhibit B and C, respectively.

**PURPOSE**

The PII Policy ensures that the Department maintains the security, confidentiality, and integrity of the information it acquires from its retailers, employees, contractors, vendors, and customers. Under the Statutes, the Department establishes guidelines and procedures to address the protection, collection and utilization of PII. See Also Exhibit A.

**SCOPE**

The PII Policy applies to all information containing Personal Identity Information (defined below) and to all Department employees, vendors and contractors that have been granted access to resources containing Personal Identity Information (defined below). The terms of the PII Policy intend to encompass the requirements of the Statutes. To the extent that the PII Policy conflicts with any Illinois or federal law, such law shall supersede the language of the PII Policy.

**DEFINITIONS**

“**Breach**” means an unauthorized acquisition of computerized data that compromises the security, confidentiality, or integrity of personal information maintained by the Department.

“**Disclosure**” means permitting access to, revealing, releasing, transferring, disseminating, or otherwise communicating all or any part of any individual record orally, in writing, or by electronic or any other means to any person or entity except the party identified as the party that provided or created the record.

“**Identity Protection Act**” means 815 ILCS 530, which seeks to protect the identity of individuals by defining permissible and prohibited practices in the collection, use, and handling of social security numbers by the agencies of the State. Full text of the Act is attached here as Exhibit B.

“**Personal Identity Information or PII**” means an individual's first name or first initial and last name in combination with any one or more of the following data elements, when either the name or the data elements are not encrypted or redacted: (a) Social Security number; (b) Driver's license number or State identification card number.; (c) Account number or credit or debit card number, or an account number or credit card number in combination with any required security code, access code, or password that would permit access to an individual's financial account. PII does not include publicly available information that is lawfully made available to the general public from federal, State, or local government records.

“**Publicly Post**” or “**Publicly Display**” means to intentionally communicate or otherwise intentionally make available to the general public.

**RESPONSIBILITIES**

1. Department employees, vendors and contractors are responsible for understanding and enforcing this policy.
2. Department employees, vendors and contractors are responsible for ensuring that all Personal Identity Information shall be used only for the purpose of conducting official state business.

**Department of the Lottery**  
**Personal Identity Information Protection Policy**

3. Department management is responsible for ensuring all Department employees, vendors and contractors who are granted access to PII in the course of performing their duties are properly trained regarding proper identification and protection of personal identity information, from time of collection through proper destruction.
4. The Department will post a copy of the PII Policy on its official website.

**POLICY**

1. **Data Collection.** Collection, use, or disclosure of PII from an individual on behalf of the Department is not allowed unless:
  - (i) required under State or federal law, rules, or regulations, or the collection, use, or disclosure of the social security number is necessary for the performance of the employee, vendor or contractor's duties and responsibilities;
  - (ii) the need and purpose for the PII is documented and communicated before collection of the PII; and
  - (iii) the PII collected is relevant to the documented need and purpose. Requiring an individual to use his or her PII to access an Internet website is also not allowed as is the use of PII for any purpose other than the purpose for which it was collected.
2. **Training.** All Department employees, vendors and contractors who have access to PII in the course of performing their duties must be trained to protect the confidentiality of PII. Training should include instructions on proper handling of information that contains PII from the time frame of collection through the destruction of the information.
3. **Redaction.** PII requested from an individual must be placed in a manner that makes the PII easily redacted if required to be released as part of a public records request. Public inspection and copying of documents containing social security numbers must be done in accordance with the Identity Protection Act.
4. **Disposal of Data.** Collected PII, electronic data or written material, that is no longer needed or required to be stored must be disposed of in such a manner as to ensure the security and confidentiality of the material and in accordance with the State Records Act (5 ILCS 160) and Personal Information Protection Act (815 ILCS 530/30 and 40).
5. **Access.** Only employees or contractors who are required to use or handle information or documents that contain PII shall have access to it. All PII obtained must be secured and stored in a manner that prevents and discourages public release. Controls shall be maintained to restrict network access to the electronic PII stored there. Physical PII must be secured (i.e. in a locked cabinet, file or office).
6. **Breach.** If PII has been disclosed via a Breach without being redacted, encrypted, or otherwise protected before exposure, the affected individuals shall be notified in accordance with the Personal Information Protection Act (815 ILCS 530/12 and 25). Breach does not include good faith acquisition of PII by an employee or agent of the Department for a legitimate purpose of the Department, provided that the personal information is not used for a purpose unrelated to the Department's business or subject to further unauthorized disclosure.
7. **Statement of Purpose.** When collecting a social security number or upon request by the individual, a statement of purpose or purposes for which the Department is collecting and using

**Department of the Lottery**  
**Personal Identity Information Protection Policy**

the social security number must be provided or posted where the individual can see and read the statement of purpose.

8. **Prohibited Activities.** Pursuant to the Identity Protection Act (5 ILCS 179/10) the following activities are prohibited by the Department unless circumstances exist as outlined in (5 ILCS 179/10c):
- a. Publicly post or publically display in any manner a person's PII.
  - b. Print a person's PII on any card required for the person to access products or services provided by the Department.
  - c. Require a person to transmit PII over the Internet, unless the connection is secure or the PII data is encrypted.
  - d. Print a person's PII on any materials that are mailed to the person, through the U.S. Postal Service, any private mail service, electronic mail, or any similar method of delivery, unless State or federal law requires the PII to be on the document to be mailed. However, PII may be included in applications and forms sent by mail, including, but not limited to, any material mailed in connection with the administration of the Unemployment Insurance Act, any material mailed in connection with any tax administered by the Illinois Department of Revenue, and documents sent as part of an application or enrollment process or to establish, amend, or terminate an account, contract, or policy or to confirm the accuracy of the PII. A PII that is permissibly mailed will not be printed, in whole or in part, on a postcard or other mailer that does not require an envelope or be visible on an envelope without the envelope having been opened.
  - e. Encode or embed PII in or on a card or document, including, but not limited to, using a bar code, chip, magnetic strip, RFID technology, or other technology, in place of removing the PII as required by the Identity Protection Act, or in place of removing the PII as outlined in this Identity Protection Policy.

Any State agency that collects personal information concerning an Illinois resident shall notify the resident at no charge that there has been a breach of the security of the system data or written material following discovery or notification of the breach. The disclosure notification shall be made in the most expedient time possible and without unreasonable delay, consistent with any measures necessary to determine the scope of the breach and restore the reasonable integrity, security, and confidentiality of the data system. However, the State agency must notify the Illinois resident as soon as notification will no longer interfere with the investigation.
- b. For purposes of this Section, notice to residents may be provided by one of the following methods:

Substitute notice shall consist of all of the following:
    - 1. email notice if the State agency has an email address for the subject persons;

- c. Notwithstanding subsection (b), a State agency that maintains its own notification procedures as part of an information security policy for the treatment of personal information and is otherwise consistent with the timing requirements of this Act shall be deemed in compliance with the notification requirements of this Section if the State agency notifies subject persons in accordance with its policies in the event of a breach of the security of the system data or written material.
- d. If a State agency is required to notify more than 1,000 persons of a breach of security pursuant to this Section, the State agency shall also notify, without unreasonable delay, all consumer reporting agencies that compile and maintain files on consumers on a nationwide basis, as defined by 15 U.S.C. Section 1681a(p), of the timing, distribution, and content of the notices. Nothing in this subsection (d) shall be construed to require the State agency to provide to the consumer reporting agency the names or other personal identifying information of breach notice recipients.

The Attorney General may impose a civil penalty after notice to the person accused of violating this Section and an opportunity for that person to be heard in the matter. The Attorney General may file a civil action in the circuit court to recover any penalty imposed under this Section.
- e. In addition to the authority to impose a civil penalty under subsection (d), the Attorney General may bring an action in the circuit court to remedy a violation of this Section, seeking any appropriate relief.
