Helpful ADA Information

Sales and Service Counter

When sales or service counters are provided, the Americans with Disabilities Act (“ADA”) states that such counters must be accessible, if doing so is readily achievable. Accessible sales and service counters must:

- o Be at least 36 inches long and no more than 36 inches above the floor and
- o Have a clear floor space in front of the accessible surface that permits a customer using a wheelchair to pull alongside it (this space must be at least 30 inches by 48 inches and may be parallel or perpendicular to the counter).

An alternative solution is to provide an auxiliary counter near the sales or service counter that meets ADA requirements. Having accessible sales and service counters is good for business and supports the Illinois Lottery’s commitment to providing an inclusive environment for all customers.
