Countdown to Technology Transition

We're at an exciting stage in preparing for the rollout of new technology to every Lottery retailer in Illinois! In order to have a seamless transition, your full cooperation and support is greatly appreciated.

Key Months:

APRIL & MAY:

Retail Transition Audit

Each store has already been evaluated on its ability to house the new equipment. This is necessary so we can adequately test the new terminal, and to ensure every store is prepared for business changeover.

SEPTEMBER:

Installation of Equipment

Intralot will begin the installation, which will include placement of the new terminal, monitor and ticket checker on the main counter. It will take ten weeks to install the equipment throughout the state.

OCTOBER & NOVEMBER:

Training

Being familiar with this new technology is important for making sales. Intralot will provide mandatory retailer training sessions on the new terminals and other equipment. We want to make sure you're fully prepared for business changeover day!

DECEMBER 4, 2018:

BUSINESS CHANGEOVER DAY

Get excited! On December 4th the IGT Terminal will no longer be used and shortly after the go-live date, all IGT equipment will be picked up from your store. Two weeks prior to changeover, you will receive new play slips for all Draw-based games. All Instant Ticket stock and terminal ticket rolls can still be used.

- The Lottery and Camelot teams will continue to inform you of important dates and the latest news on this exciting technology.
