DID YOU KNOW?

TSI service technicians work 7 days a week, including evenings and weekends. The technicians do preventative maintenance when they do not have service calls. Do not be alarmed if you see a TSI service technician in your store.

Shelves, Sales & Service Counters, and Check-Out Aisles

When sales or service counters are provided, the counters must be accessible if doing so is readily achievable. This access is an important part of receiving the goods and services provided by a business.

An alternative solution is to provide an auxiliary counter nearby. The obligation to remove barriers also applies to merchandise shelves, sales and service counters, and check-out aisles.

At counters having a cash register, a section of counter at least 36 inches long and not more than 36 inches above the floor will make the counter accessible. This provides a lowered surface where goods, services and money can be exchanged.

Shelves and counters must be on an accessible route with enough space to allow customers using mobility devices to access merchandise.
